The Experts in Financing

The Bankenfachverband represents the interests of credit banks in Germany. Its members are experts in consumption and investment as well as automotive financing. They have lent 133 billion euros to consumers and companies. Thus they contribute to stimulating the economy and business activity. Every second instalment loan is granted by one of the credit banks.

Here you can find a [summary](#) of the members' businesses and the financing markets in Germany.

Click here to read our latest [survey of Consumer and Vehicle Finance](#) in Germany and a new Study on the significance of [Point-of-Sale-financing in Retail](#). Here you will find our members' Code for "Responsible Lending for Consumers" in an [English text version](#) and in the [original German version](#). More documents are available [here](#).
